

10 **CYBER SECURITY** **TIPS FOR BUSINESS**

**Anyone can be a target
for cyber criminals**

**Passwords should be
strong and unique**

**Report any and all
suspicious activity**

**Keep all software and
hardware up to date**

**Be careful when clicking
links or files in emails**

**Secure all devices
including smartphones**

**Identify your security
weaknesses and fix them**

**Lock your computer when
you're away from it**

**Review your cyber security
measures every year**

**Make multiple backups, with
at least one kept off site**
